National Environmental Policy Act Documentation for Shipments of Low Level Waste to Hanford Contained in the 1980 Rocky Flats Environmental Impact Statement

Maria Vargas, Low Level Waste Lead, Waste Management Division, RFO

I have reviewed the revised analysis of the National Environmental Policy Act (NEPA) documentation for shipments of low level waste to Hanford that is contained in the 1980 Rocky Flats Environmental Impact Statement (EIS). The summary of the documentation dated March 17, 1994 contains sufficient information to show that the impacts of the described waste shipments to Hanford were bounded by the analysis in the EIS. No further NEPA is required to be prepared before the waste shipments can occur.
